

Food Allergy Community Educator (F.A.C.E.)

- With generous financial support from Food Allergy Initiative (FAI)-Chicago, Children's Memorial Division of Allergy/Immunology introduced FACE in July, 2009.

Who...

Katy Schmeissing, MS, RN

Division of Allergy

Children's Memorial Hospital

FACE@childrensmemorial.org

What ...

- Mission: provide research-based food allergy education to the community.
- Target audience: staff at schools, camps and community groups.
- Goal: educate staff so that they can create a safer environment for their food allergic children.
- Education free of charge.

When...

- When invited!

If you would like to recommend FACE to provide education to a group, please forward contact information (FACE@childrensmemorial.org) to the appropriate staff member of the organization.

Where...

- FACE travels!
- Spring/summer: target summer camp staff
- Year-round: target school staff
 - HB281

Where...are we going...

In anticipation of the increased need for education and advocacy in the public school sector, we would like the FACE position to expand to a FACE program next year.

Thank you!
